

Testing Programs," April 11, 1988, and subsequent amendments thereto.

(b) Employers subject to this part may also use laboratories located outside the United States if—

(1) The Department of Transportation, based on a written recommendation from DHHS, has certified the laboratory as meeting DHHS laboratory certification standards or deemed the laboratory fully equivalent to a laboratory meeting DHHS laboratory certification standards; or

(2) The Department of Transportation, based on a written recommendation from DHHS, has recognized a foreign certifying organization as having equivalent laboratory certification standards and procedures to those of DHHS, and the foreign certifying organization has certified the laboratory, pursuant to those equivalent standards and procedures.

Subpart C—Alcohol Testing

SOURCE: 59 FR 7357, Feb. 15, 1994, unless otherwise noted.

§ 40.51 The breath alcohol technician.

(a) The breath alcohol technician (BAT) shall be trained to proficiency in the operation of the EBT he or she is using and in the alcohol testing procedures of this part.

(1) Proficiency shall be demonstrated by successful completion of a course of instruction which, at a minimum, provides training in the principles of EBT methodology, operation, and calibration checks; the fundamentals of breath analysis for alcohol content; and the procedures required in this part for obtaining a breath sample, and interpreting and recording EBT results.

(2) Only courses of instruction for operation of EBTs that are equivalent to the Department of Transportation model course, as determined by the National Highway Traffic Safety Administration (NHTSA), may be used to train BATs to proficiency. On request, NHTSA will review a BAT instruction course for equivalency.

(3) The course of instruction shall provide documentation that the BAT

has demonstrated competence in the operation of the specific EBT(s) he/she will use.

(4) Any BAT who will perform an external calibration check of an EBT shall be trained to proficiency in conducting the check on the particular model of EBT, to include practical experience and demonstrated competence in preparing the breath alcohol simulator or alcohol standard, and in maintenance and calibration of the EBT.

(5) The BAT shall receive additional training, as needed, to ensure proficiency, concerning new or additional devices or changes in technology that he or she will use.

(6) The employer or its agent shall establish documentation of the training and proficiency test of each BAT it uses to test employees, and maintain the documentation as provided in § 40.83.

(b) A BAT-qualified supervisor of an employee may conduct the alcohol test for that employee only if another BAT is unavailable to perform the test in a timely manner. A supervisor shall not serve as a BAT for the employee in any circumstance prohibited by a DOT operating administration regulation.

(c) Law enforcement officers who have been certified by state or local governments to conduct breath alcohol testing are deemed to be qualified as BATs. In order for a test conducted by such an officer to be accepted under Department of Transportation alcohol testing requirements, the officer must have been certified by a state or local government to use the EBT or non-evidential alcohol screening device that was used for the test.

[59 FR 7357, Feb. 15, 1994, as amended at 60 FR 19679, Apr. 20, 1995]

§ 40.53 Devices to be used for breath alcohol tests.

(a) For screening tests, employers shall use only EBTs. When the employer uses for a screening test an EBT that does not meet the requirements of paragraphs (b) (1) through (3) of this section, the employer shall use a log book in conjunction with the EBT (see § 40.59(c)).

(b) For confirmation tests, employers shall use EBTs that meet the following requirements:
